WPS  
Office  
2012

Saving money - the WPS can greatly save the enterprise information construction funds.

Compatibility and improve office efficiency, document highly compatible based on innovation, better adapt to China's enterprise office information demand.

In favor of informationization development, enterprise informationization is the important tool to meet new challenge, how can the best in the industry by means of information, enhance the core competitiveness of enterprises and the efficiency of the production office? I believe professional software company can provide enterprises with a more pragmatic and more accurate advice and support.

Guarantee after sale technical support services, business office software applications require good after sale service and technical support to do security. Through the professional software company after sale service and technical support, to play the role of information office office software, promote enterprise whole office efficiency, safety, development.

Excellent genuine solution

1, product technical strength: fifteen countries during the 863 software major specialized subject, the torch plan projects in

2, the product of genuine strength: genuine Chinese outstanding enterprises, China government procure-ment promotion goals of office software.

3, product user strength

The national 57 ministry (The Ministry of foreign affairs 2 choice procurement, depth of application finance; the people's Bank of China (the system depth of applications), the Agricultural bank of China (the branch of the comprehensive deploy) (The military system: Chengde Military Region ( capture WPS army special discar-
