

# 基于容器的测试环境治理实践

京东商城 吴凯

2017/12/16

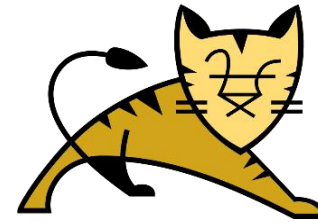

很久以前.....

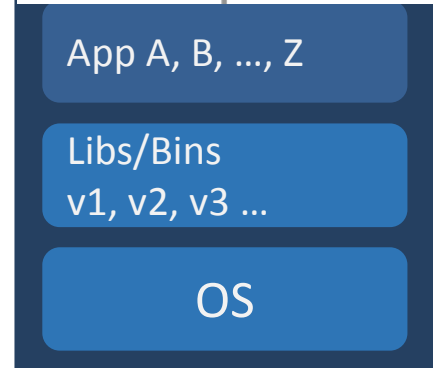

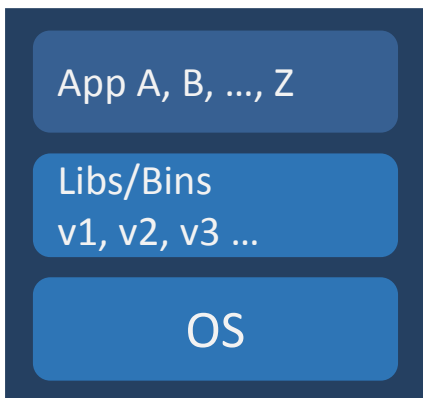

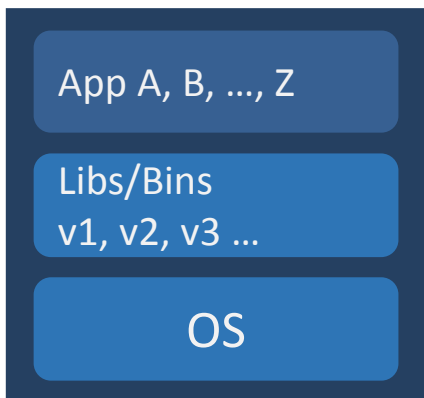

IBM  
WebSphere

NGINX

重启大法好，重装大法更好

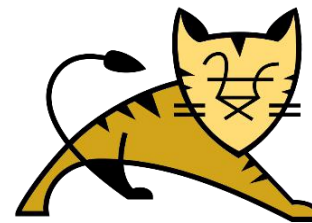

# 虚拟机回来了

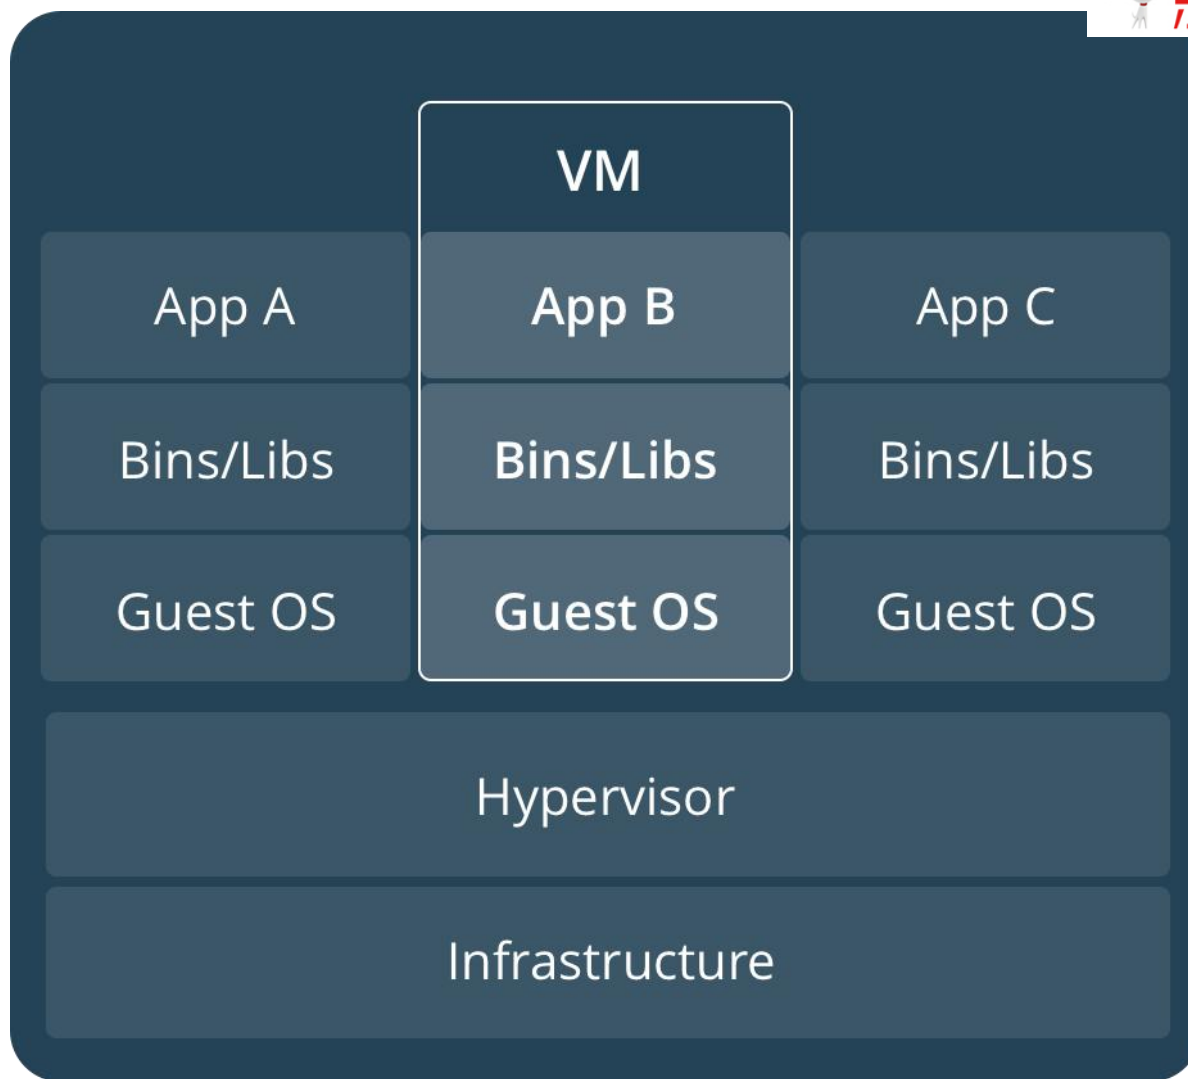

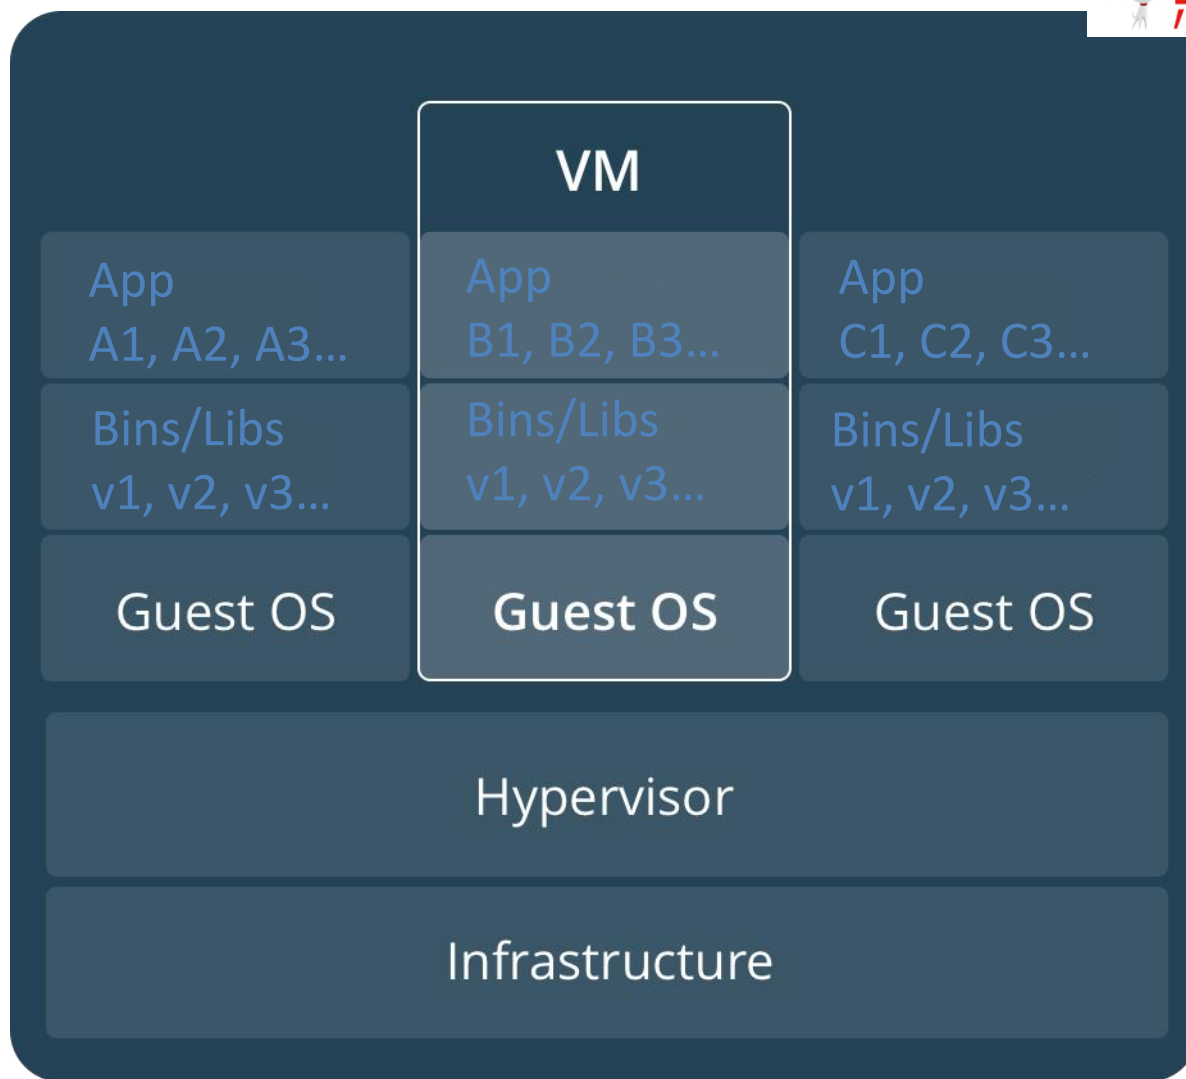

IBM  
WebSphere

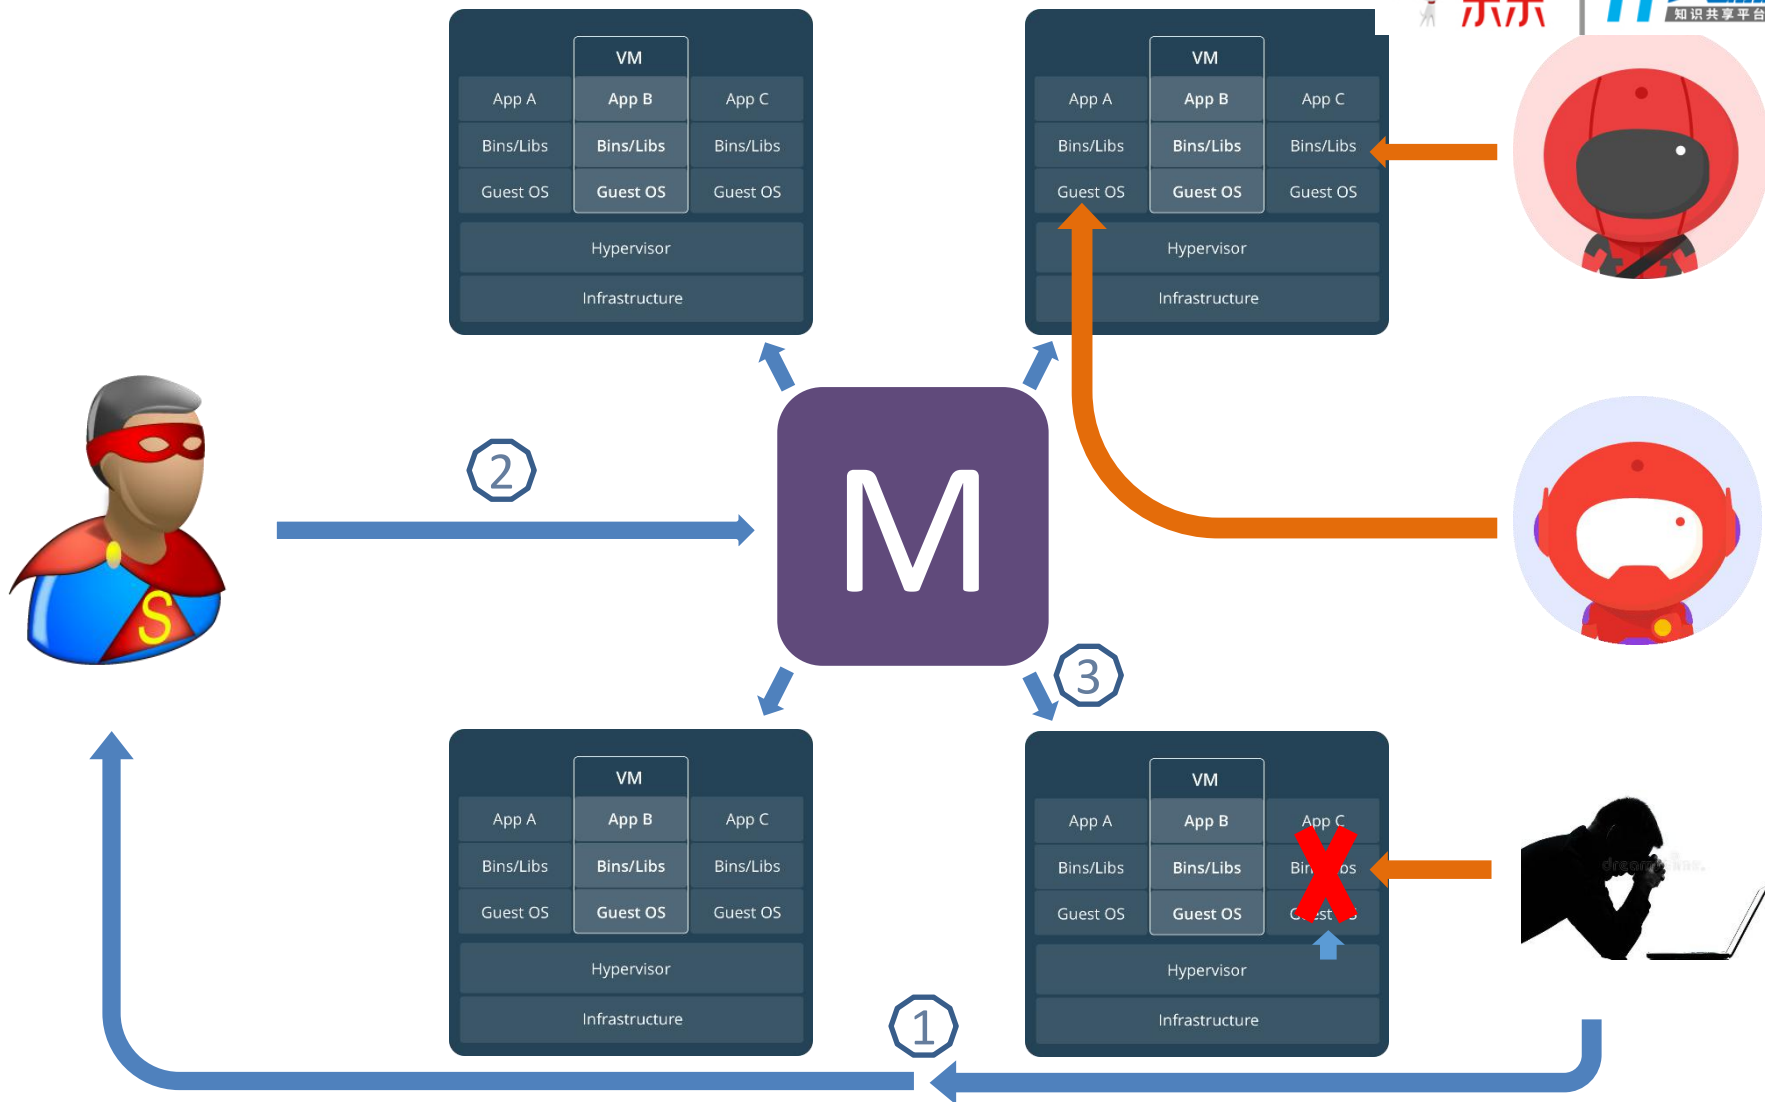

NGINX

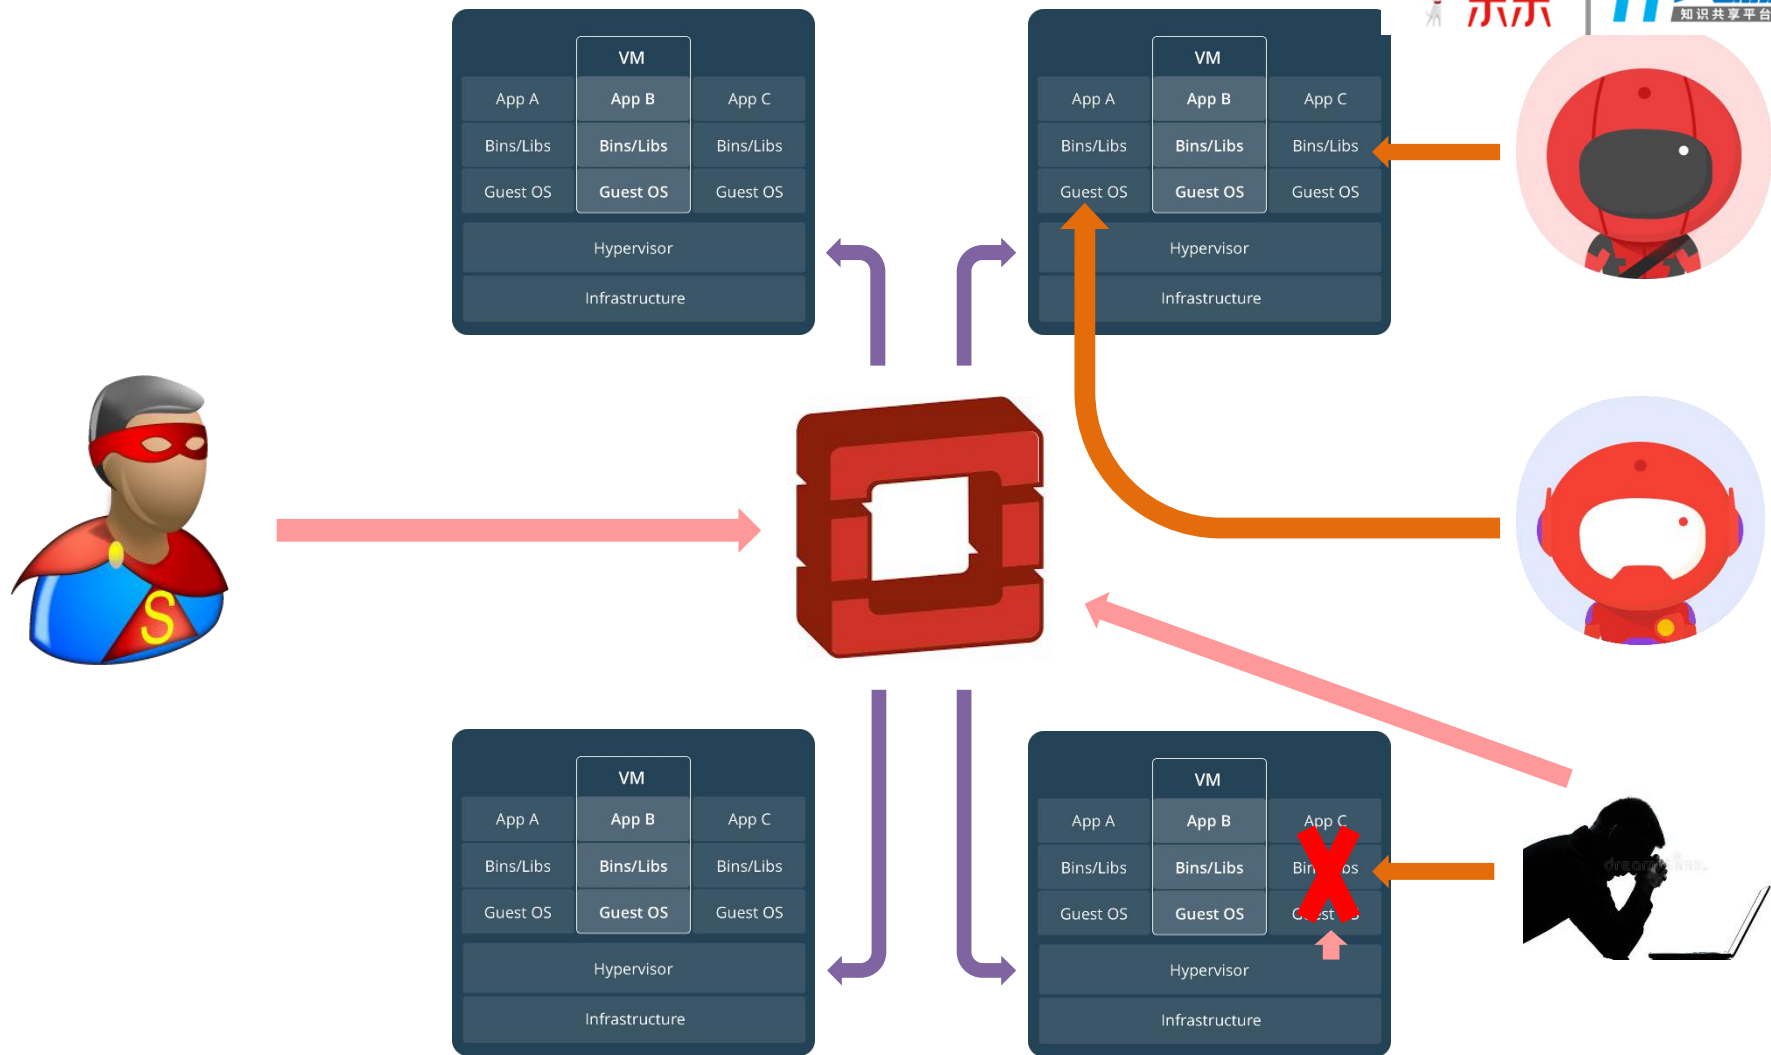

# Docker降临

Build, Ship, Run, Any App Anywhere

From Dev

To Ops

Any App

Any OS

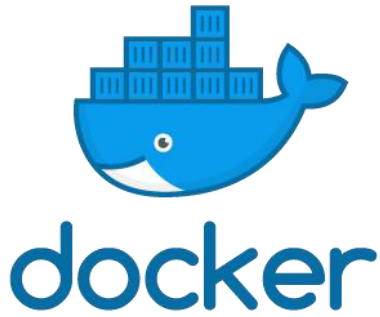

Anywhere

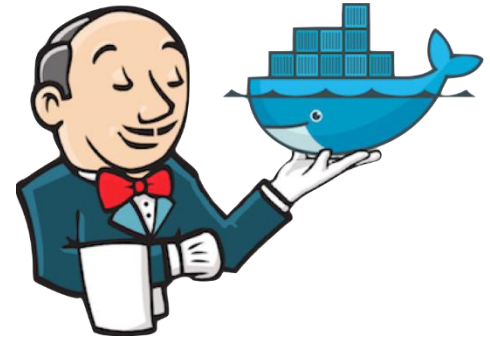

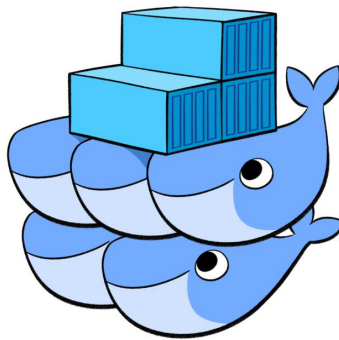

ANSIBLE

CHEF

puppet

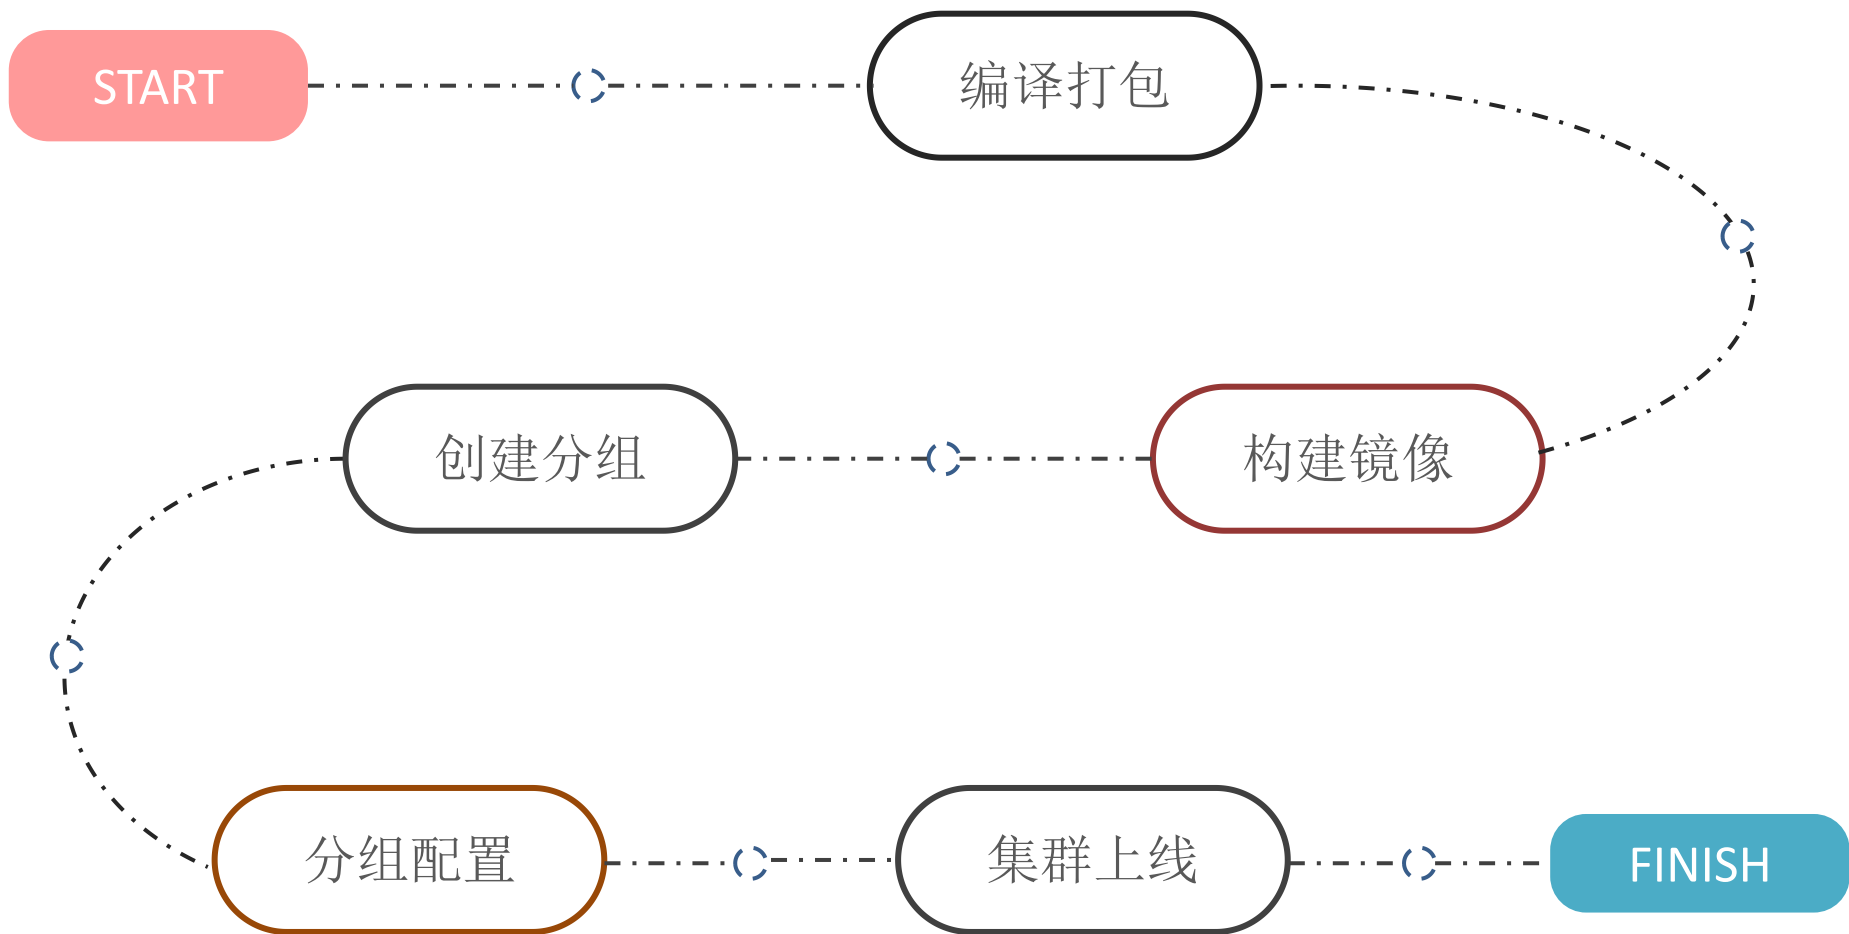

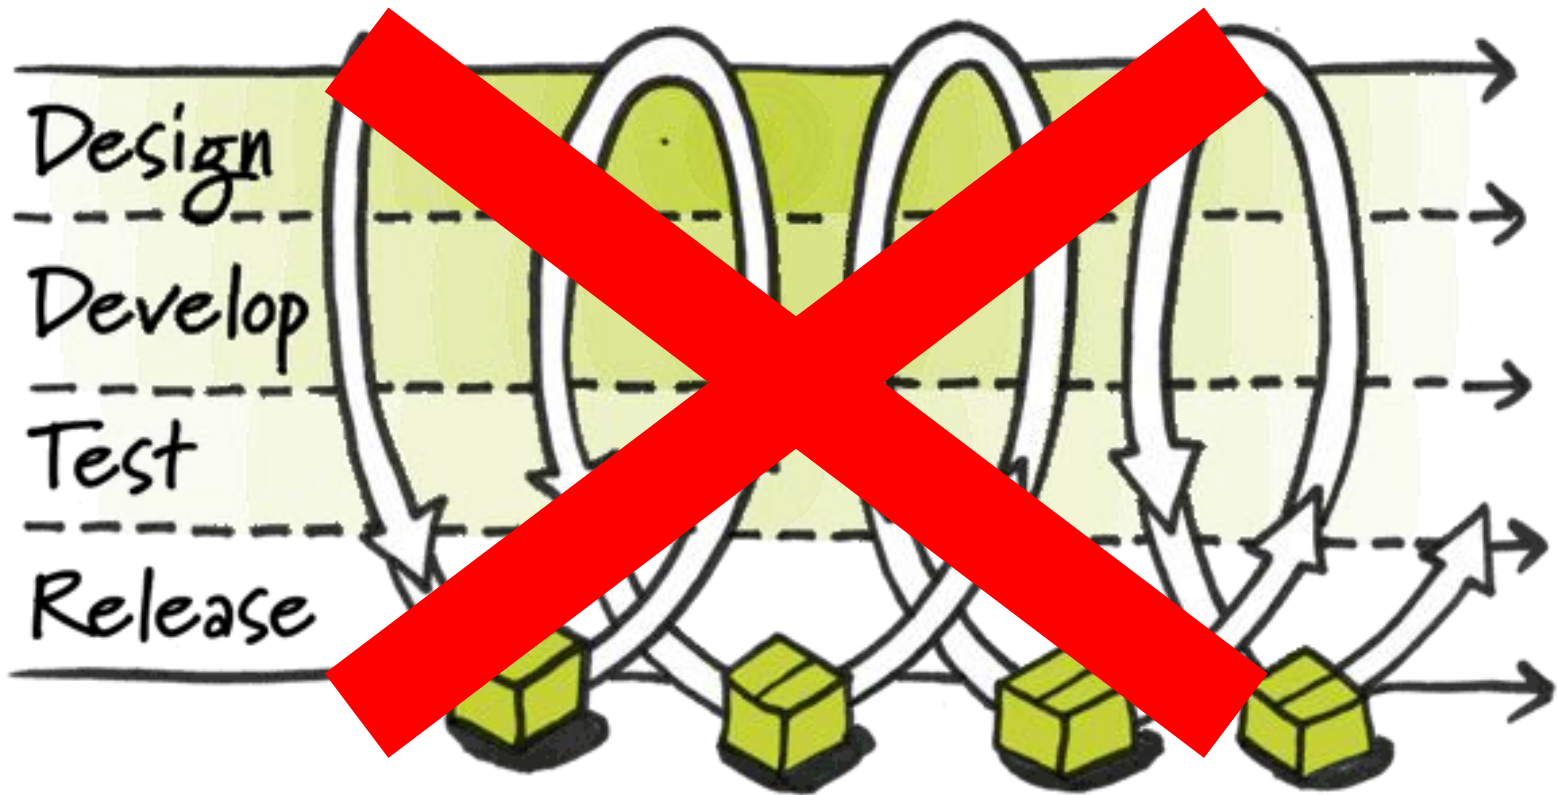

JONE

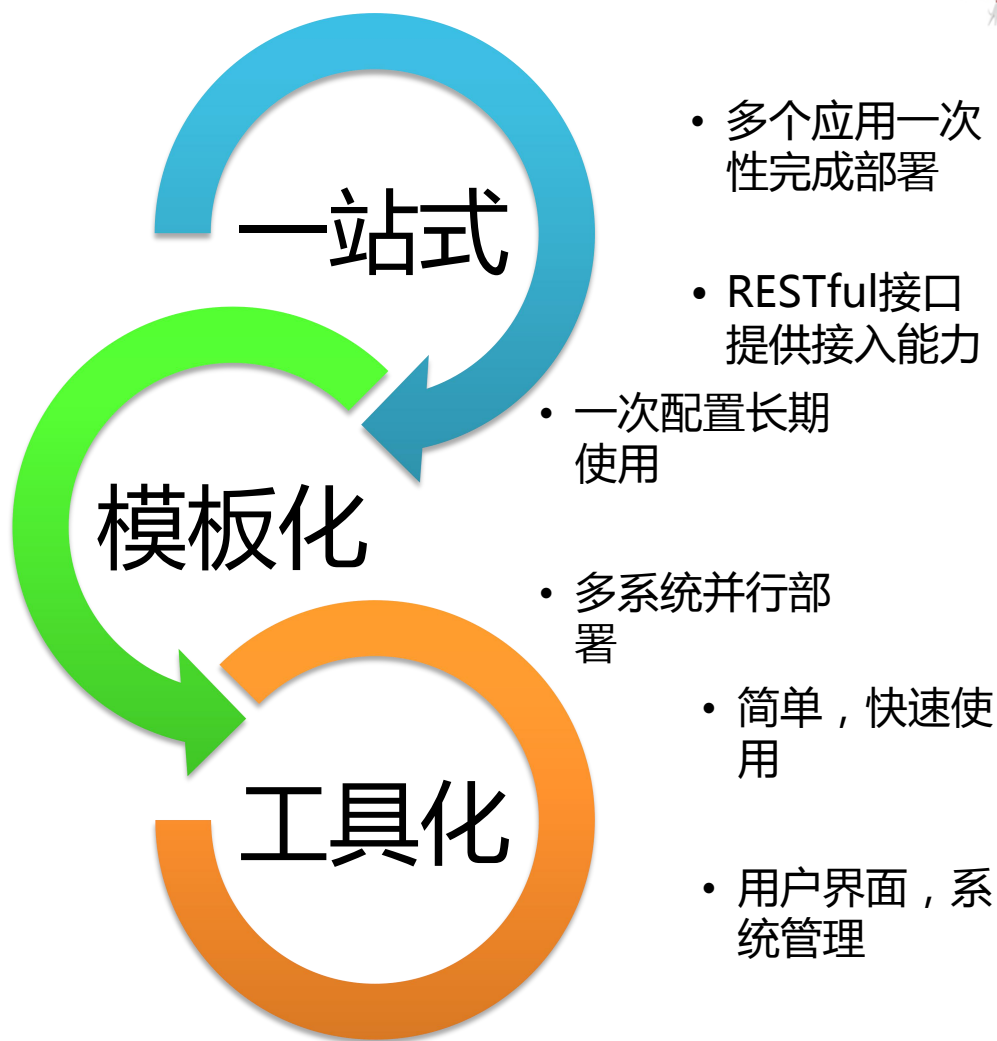

# 基于JDOS治理测试环境

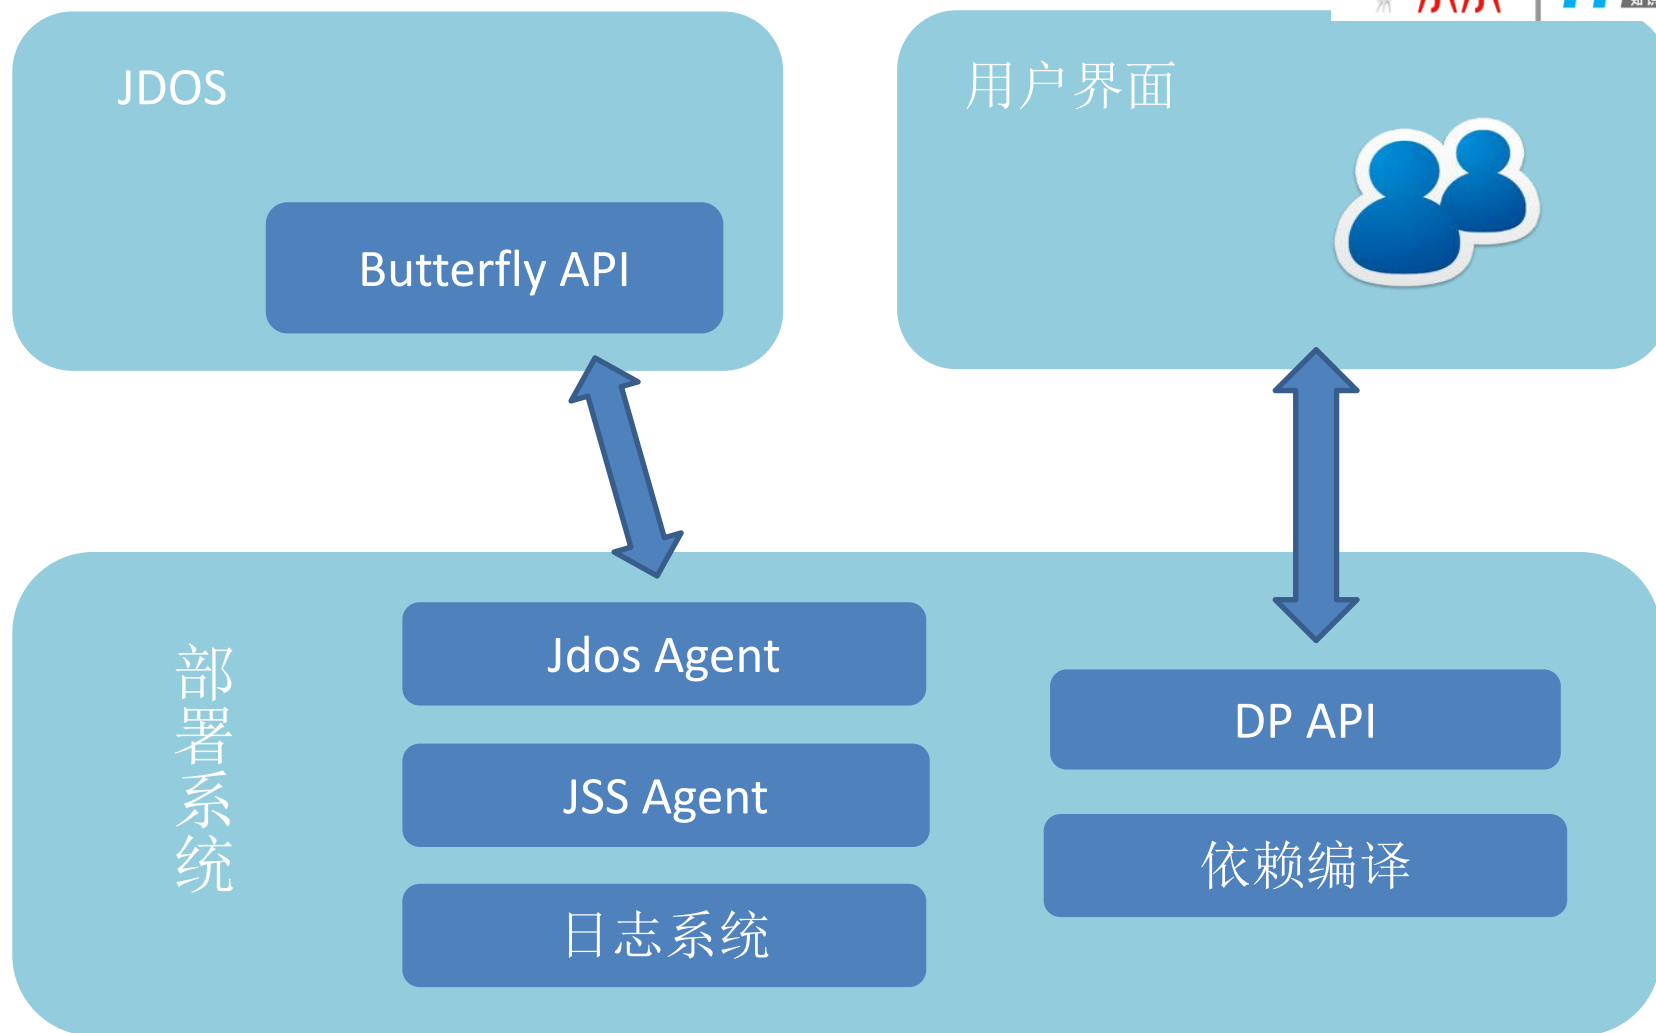

# 实现

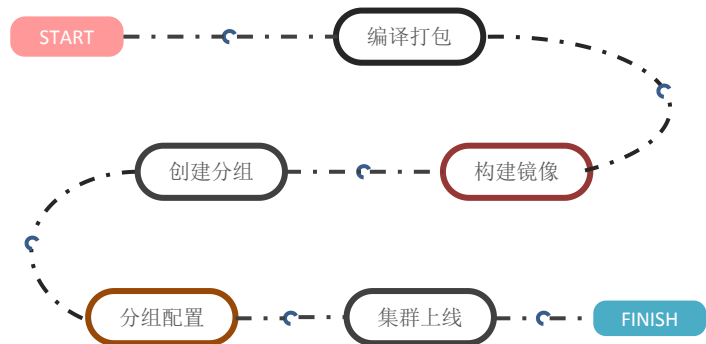

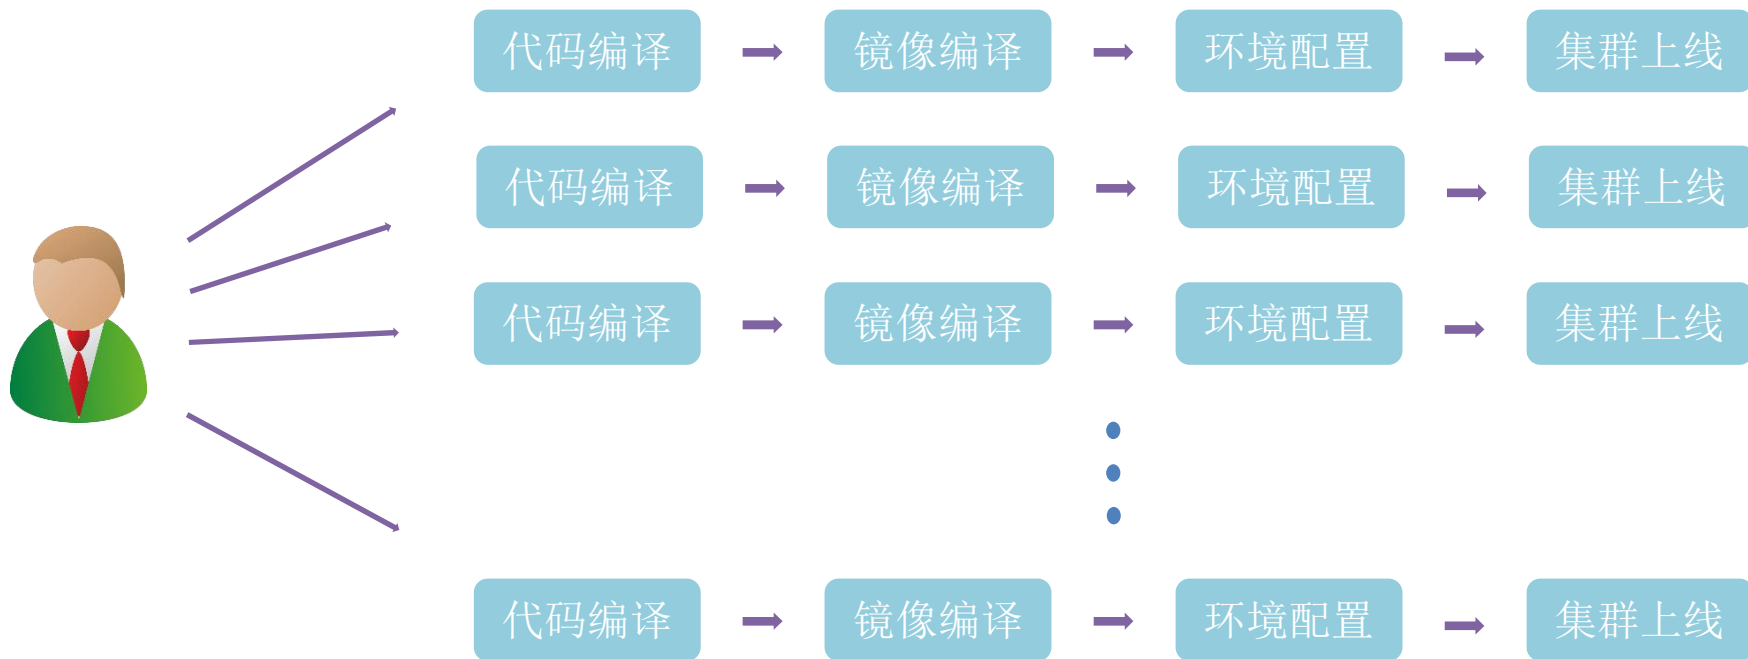

```

{
  "systemName": "idnflight",
  "jdosAppProcesses": [
    {
      "appName": "idnflitfrt",
      "javaGitCompileParam": {"compileEnvironment": "linux"...},
      "buildJavaImageParam": {"count": "1"...},
      "createGroupParam": {"systemName": "idnflight"...},
      "createGroupConfigParam": {"systemName": "idnflight"...},
      "createGroupConfigFileParams": [...],
      "containerNumber": 1
    },
    {
      "appName": "idnflitgw",
      "javaGitCompileParam": {"compileEnvironment": "linux"...},
      "buildJavaImageParam": {"count": "1"...},
